Capital Market Review

The stock market of Pakistan showed mix performance during the three months under review. The stock market showed highest ever closing in August 2015 as the KSE - 100 index crossed 36,000 level but the market was unable to sustain at these levels and the index declined 6% during 1QFY16. Foreign investors pulled out US\$ 105 million from the local stock market.

Financial Results of the Company

During the first quarter ended September 30, 2015 the Company suffered net loss of Rs. 2.80 million as against loss of Rs. 13.71 million during the corresponding period of last year. Loss for the period is mainly due to share of loss of associated undertaking and remeasurement of investments at fair value.

Future Outlook

Besides the political and law and order challenges positive economic activity is expected on the back of lowering inflation and interest rates. We might see a stable positive development in the Karachi Stock market on the improvement on the political front.
